

ART DIRECTION WITH A PULSE.

Original visual systems, structured prompts and emotionally precise greeting-card concepts - created with ChatGPT / OpenAI Images.

Not a one-off look. A reusable visual grammar.

I begin with the emotional job: what should this card let one person say to another? Style follows relationship, occasion and tone. The final prompt separates stable style DNA from controlled variables so the idea can expand into a coherent product library.

02

DIAGNOSED ITERATIONS

Signals in. Style systems out.

Directional desk research - not invented user testing. Four lenses were triangulated and translated into concrete art-direction rules.

CREATIVE FORECAST

Tactile feeling beats sterile polish

Adobe's 2026 themes emphasize sensory texture, emotional connection and playful surrealism.

Decision: Use paper grain, visible repair, imperfect edges and one legible gesture.

VISUAL DISCOVERY

Curated individuality over sameness

Pinterest's 2026 forecast highlights poetcore, celestial cues, glitchy glamour and refined maximalism.

Decision: Combine signals through an owned grammar; never copy a micro-trend whole.

MARKETPLACE LANGUAGE

Humor is specific and relationship-aware

Etsy discovery language repeatedly frames Gen Z cards as funny, sassy and meme-aware.

Decision: Build jokes from relationship truths, not disposable internet references.

CATEGORY BEHAVIOR

The card must make someone feel seen

Category reporting emphasizes authenticity and heavier, less traditional life moments.

Decision: Emotion first, aesthetic second; expand beyond conventional occasions.

JOY / INTENSITY 09

CHAOTIC BIRTHDAY

GLITCH GARDEN LETTERS

A visual detonation that stays usable: one hero silhouette, constrained palette and protected message space.

VULNERABILITY / INTENSITY

AWKWARD, BUT SINCERE

TENDER BRUTALISM

Architectural certainty holds a fragile character. The tension between hard geometry and a repaired heart becomes the apology.

CLOSENESS / INTENSITY 07

SAME SKY, DIFFERENT WI-FI

COSMIC SCRAPBOOK

Two private worlds connect through shared rituals. Personal objects replace generic friendship symbols.

RECLAMATION / INTENSITY 08

WATER YOURSELF

NEO-BAUHAUS SURREALISM

Recovery without sad clichés: discarded red flags become birds while something new grows from the crack.

One brief. Many visual dialects.

WATERCOLOR

RETRO CINEMA

CYBERPUNK

BAUHAUS

ANIMATION

Style is a set of decisions.

A GLITCH GARDEN LETTERS

Botanical watercolor + fluorescent risograph + digital interference

ONE ORGANIC FOCAL FORM / EDGE-ONLY MISREGISTRATION / 30% QUIET SPACE / IMPERFECT TEXTURE

B TENDER BRUTALISM

Brutalist geometry + vulnerable pencil + diary ephemera

HARD STRUCTURES HOLD SOFT CHARACTERS / ONE REPAIRED OBJECT / RESTRAINED EMOTION

C COSMIC SCRAPBOOK

Analog scrapbook + Y2K fragments + gentle aliencore

TWO WORLDS / ONE CONNECTING THREAD / PERSONAL OBJECTS / TORN-PAPER DEPTH

Same DNA. Different emotional jobs.

GLITCH GARDEN / PROUD

GLITCH GARDEN / WEEK

TENDER / SUPPORT

TENDER / THANKS

COSMIC / FAMILY

COSMIC / MILESTONE

scenarios. This is a small portfolio consistency test, not industrial-scale validation.

Diagnosis before decoration.

BEFORE

AFTER

COMPOSITION REPAIR

Problem: Crowded objects and no message space

Correction: One silhouette, controlled palette, upper-left safe zone

BEFORE

AFTER

EMOTIONAL FOCUS

Problem: A pile of symbols with no clear emotional action

Correction: One hesitant character offering one repaired object

Stable DNA

Palette, texture logic,
composition rules and avoid-list
remain fixed.

Controlled variables

Occasion, relationship, emotion
intensity, subject and message-
safe position can change.

Research -> structure -> generate -> evaluate -> refine.

01

RESEARCH

Audience, emotion and
visual culture

02

STRUCTURE

Stable DNA and
controlled variables

03

GENERATE

OpenAI Images with
explicit constraints

04

EVALUATE

Emotion, hierarchy,
space, repeatability

05

REFINE

Single-variable fixes
become reusable rules
